

2020 ASAS-CSAS-WSASAS

Virtual Annual Meeting July 19 – 23

Register online at <https://www.asas.org/meetings/annual-2020>

About this event

The virtual meeting will provide an opportunity for animal scientists from across the field to gather virtually for four days of inspiration and community, focused on cutting edge animal science research. Meeting organizers are excited to offer opportunities to broaden participation while eliminating geographic and travel barriers.

Oral Presentations

DuPont presenters will be available in pre-recorded 12-minute talks. These talks will be released on the day they are scheduled to be presented - with question and answer capabilities available through the meeting app/website.

Abstract Presentations:

Functionality of a novel consensus bacterial 6-phytase variant in enhancing phosphorus digestibility in gestating and lactating sows

Deepak E. Velayudhan, Animal Nutrition, DuPont Nutrition & Biosciences, Leiden, Netherlands.

Meta-analysis of 3 trials: the effect a novel consensus bacterial 6-phytase variant on phosphorus digestibility and retention in piglets fed inorganic phosphate free diets

Deepak E. Velayudhan, Animal Nutrition, DuPont Nutrition & Biosciences, Leiden, Netherlands

Functionality of a novel consensus bacterial 6-phytase variant on ileal phytate degradation in weaned piglets fed diets without inorganic phosphate

Yueming Derjant-Li, Animal Nutrition, DuPont Nutrition & Biosciences, Oegstgeest, Netherlands

Symposium:

Mortality in Pigs - Wednesday July 22, 2020

- **Dr. Chris Hostetler, National Pork Board** – Impact of pig mortality on U.S. pig producers
- **Dr. Jason Ross, Iowa State University** – Towards improving pig livability: Strategies to understand and mitigate sow mortality
- **Dr. Mike Tokach, Kansas State University** – Opportunities to enhance wean-to-finish swine survival
- **Dr. Janet Remus, DuPont Animal Nutrition** – Using nutrigenetics to improve robustness in pigs
