

DuPont Nutrition & Biosciences Commitment to Quality, Food and Product Safety

Through our commitment to Quality, Food and Product Safety, DuPont Nutrition & Biosciences affirm to all our stakeholders, including our employees, customers, shareholders, and the public, that we will work collaboratively to provide consistent quality and safe products everywhere. Our ongoing commitment is to manufacture authentic products safely and sustainably, and to meet applicable regulatory and statutory requirements globally through the implementation of our quality, food and product safety and product stewardship processes.

Key to this process is our commitment to our Core Values: *Safety and Health, Protect the Planet, Respect for People and Highest Ethical Behavior*. Our commitment is demonstrated by communicating and verifying that the principles of our Quality, Food and Product Safety policy are understood and consistently demonstrated by employees at all levels of the organization.

Our management is committed to continuous improvement and supports the quality, product safety and product stewardship management systems and programs in line with our objectives and targets.

A handwritten signature in blue ink that reads "M. Heinzl".
