

GRINDSTED® VEG PRO Carob protein

An all-natural plant-based source of protein from the germ of the carob kernel

A plant-based, clean-label protein

GRINDSTED[®] VEG PRO Carob protein

GRINDSTED[®] VEG PRO Carob protein is an all-natural vegetable protein with a well-balanced amino acid profile, similar to soy. It is used in a wide range of food applications, including baby food, desserts, beverages and bars.

Aligned with trends - how we help

Clean label

GRINDSTED® VEG PRO Carob protein is a clean label product that will appeal to health-conscious consumers.

Better nutrition

Carob protein has a well-balanced amino acid profile, similar to soy protein. It is a good source of high-quality protein and can be used to replace other types of plant protein.

Sustainability

Carob trees help stop desertification by reducing soil erosion. The trees are known for their ability to fix carbon, and their cultivation requires little, if any, fertilizers or irrigation. Carob production has a very low carbon footprint, as verified by a third-party reviewed, ISO-compliant LCA. It is extracted via a simple, mainly mechanical, process.

GRINDSTED® VEG PRO Carob protein supports at least five of the United Nations Sustainable Development Goals:

Global supplier of high-quality hydrocolloids

DuPont Nutrition & Biosciences has over 60 years of experience as a global supplier of high-quality hydrocolloids, each tailored to our customer's individual performance requirements.

Solution capabilities

- Industry leading Food & Beverage application scientists ready to create customer specific solutions drawing from a uniquely broad ingredient and technology portfolio
- Tailor made functionality to optimize each application

Reliable global network

- World-class Quality Management System to secure highest levels of quality and food safety
- With offices, research centers and manufacturing facilities worldwide, DuPont has the network to provide you with the necessary support
- World-class LBG plant, located in Spain, surrounded by carob plantations and sourced from both local and imported kernels

Committed innovation partner

- Fundamental research and application development are in our core DNA
- Our scientists are equipped with state-of-the-art facilities and expertise necessary to analyse products and data, develop prototypes and make appropriate recommendations

Customer proximity

- DuPont has application experts and labs in all major markets
- Global reach of direct sales force

GRINDSTED® VEG PRO Carob protein

Applications and range

Product range	Benefits	Application
GRINDSTED® VEG PRO	Balanced amino acid spectrum similar to milk or soy proteins. Clean-label friendly	<ul style="list-style-type: none">• Baked goods• Bars• Beverages• Culinary applications• Frozen desserts• Infant foods• Meats• Nutritional supplements• Sauces
